Added : 2015-12-14 21:29:39

Boss now asked me to remove all my clothes. I obeyed his command and opened my jeans button; all the while he stared at my boobs. He pulled it and looked at my panties. I did try to hid my pussy when he pulled my panties. But he removed my hand from my pussy. He looked at his dick playground and asked, did you shave it just today?

I nodded in yes and he smiled. Then he said, I did the same!

And he was right; his cock was clean shaved and smooth touching. He lifted me in his hands and placed on the bed.

Next thing he did was to part my legs fully and make some space for him. His head was in front of my pussy. And he planted a little kiss on my right thigh. Wow, that was so arousing and shaking for me. I pulled his head towards my cunt and next thing I could feel was just toooo cool, his lips touching my pussy flora.

Wow, he kissed my vaginal libia and it tickled me like a mad horse. My full body was aroused with this simple touch. Boss now started to move his tongue alongwith his lips on my pussy. He was licking my vagina and all the area around it. And all of a sudden his hands came on my boobs. He was fondling with my boobs alongwith pussy licking, wow any girl would die for position like this.

He kept on exploring my pussy for a while, with boobs fondling increasing steadily. Then he stood up. I could see some sticky fluid's stains on his lips. He had dug really deep in my cunt, making me release those sex juices on his lips and tongue.

He asked me, would you like to try 69?

I could not reply me, I think he just assumed my answer and placed his big cock near me. I had no other choice I guess so I started kissing it. And he himself placed his cock in my mouth. Either my mouth was small or that dick was big, I had to make efforts to take it in. He went back to his pussy licking and boobs groping business. We kept on having oral sex for next 10 minutes I think. His dick had great stamina, it just increased its size as I gave him nice blowjob. And in retaliation boss made my pussy perfect pink by repeated licking and sucking over it. We stayed idle like this till I was about to cum.

I am cumming, aah I am goint to cummmmmm .!

Come on cum in my mouth only Tabassum, he was adamant to drink my pussy juice I think.

And my body shivered a little and I pulled his head to the closest of my cunt. His tongue was inside my gloryhole. And I released it there itself. Boss drank it all and then cleaned my pussy with his tongue.

It was the show time for me after that. Boss climbed on top of me. He adjusted my body for missionary position and placed his dick near my vaginal opening. His hand went on my boobs and he shook them a little. I was all aroused and ready to take his dick. With simple jerk he pushed his dickhead inside and I moaned loudly due to pleasure. And he stopped there for a brief second. And then the second jerk followed; this time half of his dick was inside my vagina and I was moaning with pleasure.

Aahhh, aahh, yesshhhhh yehhhhhssss, aahhhhh ..!

Boss started to kiss me now. He was kissing me on my cheeks, shoulders, lips and boobs. And his cock was commuting in and out of my vagina. His jerks were really solid, like a perfect man and he was fucking me like some roadside cheap whore. But it felt great as he was fucking me and making me feel like a complete woman. When his dick was fully inside my pussy; it felt like being in heaven only. I was so pleased with my boss fucking me like this.

He rammed me in missionary position for about 10 minutes and then took out his dick from my pussy. And next thing he wanted was doggy style sex. And without this style the sex is not complete. He was behind me and I was made to stand like a bitch in front of him. He started to tease me by rubbing his dick on my vagina. It was tickling and I was eager to take it inside.

I said, come on sir give me your penis.

He smiled and replied, all your take it yourself.

I understood what he meant with that. He kept his body and dick still and I pushed back a little. I could not take his dick inside in first 2-3 attempts. But at last I could take the head part inside. And then boss grabbed me from my waist and started to fuck me again. This time his dick was going to the deepest parts of my vagina and gave me full satisfaction.

I cummed again; this time on his dick. And that aroused him more and more. He grabbed my tits and started to fuck me like a pornstar. I was moaning loudly now and his dick was going in and out with much velocity. Boss spanked my ass couple of time making it red and then released his entire load deep inside me. Wow, that warm cum excited me to fullest and I cummed again. This time our juices met for the first time. Boss slowly took out his dick from

my vagina and kissed me on my back. Then he slowly grabbed my boobs and said, I love you darling!

I whispered, I love you to sir.

I am not sir anymore. Call me Vivek when we both are alone, you can call me sir in the office.

Okay, Vivek.

We stood up and dressed ourselves. Boss gave me 4000 rupees and thanked for this wonderful sex.

And as he had promised me; my salary and position in the team increased within a month only. I am his kept now and he had also bought a 1bhk flat for me. Whenever he fancies he takes me to this flat and we fuck like a mad couple!
