My wife was having her periods day and it is common problem with every men that what they will do in wife period day or girlfriend period day in spite he was damm excited to have sex. It happened to me too. I came home and i was very excited and horny. I had seen a women who was wearing a saree with damm deep cut blouse. She was sitting just infront of me and i could see her boobs like and the uppar portion of her boobs. I was not able to control myself. My dick was really hard but some how i controlled myself during entire journey. I am sure that it was happening with all men who were sitting near.

As i came to home, i went to bathroom and had a wild masturbation but it didn't work out well. I had bath and came out for dinner. I was not feeling good and wanted to have damm wild sex. I knew that my wife had period days but my dick was not able to understand that thing and i wanted to fuck her any how. She came in bedroom around 10 o'clock after finishing off all household work. She was looking very tired but I was not in mood to her that night. As she came inside, I took her in my arms. She said - Please Ankur, no. No mood today. I am very tired and my periods in middle. It is bleeding very much. I said - i know darling. But, I can't control. I will not fuck you. Just made me discharge thru your mouth.

My wife was smiling and thought for sometime and said ok. She was seeing in my eyes and i made myself naked instantly from lower. She saw my dick and said - hmmm, what happened today? it had become so huge today? I said - yes. It is uncontrollable to today. I made her nude too, only panty i left on her body. I kept my dick on her lips and she started licking it. Her tongue was licking my dick tip. Woo, i was feeling so horny and so hot. He opened her mouth and took my dick inside her mouth. I was waiting for this moment only. As she took my dick inside. I caught her tight by pulling her hairs and then pushed my butts hard. My dick went deep throught in her mouth.

She was amazed and never expected the same from me. I was keeping stroking as I was fucking her mouth so wild. She wanted to say something but i was not listening her. She was sounding like ghu - ghu - ghu - ghu . I was just about to fucking her so hard and wild that she was not able to keep her eyes open. She was about to going faint. I was stroking really fast. It was almost 20 minutes while i was fucking her mouth. I was about to cum now. I had discharged my all cum inside her mouth. Her mouth is full of my cum and when she came back into her senses, she started beating me. She pressed my dick hard and pulled it out. She went to bathroom and trying to warmeat. I went inside and again started rubbing my dick in her asshole. My dick so

My wife saying – what is happening to you? You tool has become monster today. It is not getting satisfied. I wanted to fuck her asshole and was rubbing my dick on her asshole. She turned and said – no. No asshole. She smiled bent again on her knees. This time, she asked me – you don't stroke. I will make you cum now. She started pressing my dick and started licking my balls. She was sucking my eggs. Wow, it was paining but I was enjoying. She was biting on my balls and sucking like hell. She was continue pressing my dick too. Oh my God! what was feeling i having? She made so horny and my dick was pumping hard. I never thought that my wife could do that. I was feeling much – much better than fucking her pussy.

I was about to cum in 10 minutes. I was surprising as i just cum few minutes before and i always take time to discharge in second time. But, this time I was about to cum in 10 minutes only. She was pressing my as hard as she could. Oppss I was sounding so hard ahaha ahahahahaha baby you are so hot. You never did it before So wonderful . You are damm hot sexy .
