Hello. My name is Neha and I am 18 years old girl reading in a reputed college in +2 classes and today I will tell you the true story of my life that happened last year. I live in a small town and I stay in Amritsar for my higher studies. My college was about 7 km from my hostel and I had to go there by rickshaw.

My classes are over at 5pm. As I was about to leave, it started raining heavily. I was not feeling well that day. All of my friends were gone to their houses but I opted to wait for the rain to stop. I could not see any rickshaw or auto there, which could drop me to my house. Two hours were passed and I could not see any body near the college. Just then, I saw the college peon and asked me the matter why I had not gone to my house. I started weeping and told him the reason. He said no problem, come to my house and have some tea and then he will drop me to my hostel. But hostel door could not open after 7 PM under any circumstances, he told me to call to his hostel and take the permission to come late. As I rang to hostel, warden was not there and attendant did not allow me to come late. She rather told me to come in the morning. I requested her but she did not pay any attention on my request. The peon told me to go to any friend's house and stay for a night and go to hostel in the morning. But I did not know any friend's house. Nor I had enough money that I could stay in a hotel. He offered me to spend a night in his house. The peon was a tall man from bihar and he had strong muscles and his age was about 40 years. I thought that he must be living with his family but as I reached there I found that he was alone. I enquired about his family but he told that he was unmarried. He gave me some food to eat and in the night he gave me some milk to drink. He gave me a bed to sleep.

As I was badly tired, I felt asleep as I fall on the bed. After some time I woke up. I looked around and there was total dark. I could not see anything around me. I was feeling somebody's hand on my legs. I stay quite to see the further action. I understand it must be the peon.

He slowly hiked my skirt and rubbed my thighs very softly. Then he slowly moves towards my pussy. He rubbed his hand on my pussy over my panty. His moves were now becoming horny and horny. Now he slipped my panty aside and touched my virgin pussy. I still was not responding but I was slowly becoming excited and he was too. He now was rubbing my hairless pussy and shove inside my pussy. I cried aaaaaaaaahhhhhhhhhh. He was afraid and immediately closed my mouth by his lips on my lips. He put one of my hands under his body and with one hand he caught the other one. He started sucking my lips and shoved another hand into my pussy. My breath was running heavily and my body had become hot. He put three fingers inside my pussy

and made to and fro motions. I was flying in the heavens of sky. Just then my body ached and I was over. A lot of my vaginal juices fell on his hand. He too could understand that I had enjoyed my part. He then left me. I told him that what that was. He told me that I had just finished my first orgasm. He took my hand and holds me his dick. By god, it was a huge dick that I could not hold in my hands.

I was afraid and I left it and tried to get up. He softly took me in his hands kissed my face. He said, dear I am dying for sex. Please cooperate with me. I did not say anything. He slowly kissed my face lips and then my neck. But now I was getting irritated as I had satisfied once. Now I don't have any feeling for sex. I just get up and tried to some other place. But he grabbed me from behind and sat on the bed with I on his lap. He tried to press my boobs and softer area but I did not allow him to do. He caught both my hands and with other hand he caught my boob. He pressed it very softly. As there was a bit colder inside, my nipples were erect. He rubbed the nipples with his fingers. After some time he skipped his hands inside my t-shirt and pressed them a bit hardly. I liked it and slowly I was again become excited. I was breathing heavily and he again laid me on the bed and removed my t-shirt along with my bra. He kissed my chest then boobs very nicely and then he took one nipple in his mouth and sucked it and rubbed my second nipple with his hand. I too was becoming hot and hot. He then removed my skirt and panty. I moaned a little aaaaaaaahhhhhhhhhhh. Now he took his mouth over my stomach and kissed it and then he kissed on my tummy. Then he moved downwards and kissed my hairless virgin pussy. Oooooohhhhhhh my god, what a sensation was that. I felt like flying in the clouds. He inserted his tongue inside it and made to and fro motions. I could not understand what a nice feeling was it? Moans were escaping from my mouth. He then placed a hard thing on my pussy. I don't understand what was it. But soon I understood that it might be his dick. He rubbed his dick on my pussy. I was again about to cum but he removed his dick and again placed on it. My vaginal juices were coming out vigorously. He was placing his dick and entering slightly. I don't know what sex was before that time. He now slowly applied some force at the bottom. Suddenly a burst of pain arose inside my pussy. He applied more pressure and more of his dick entered my pussy. I was crying aaaaahhhhhhh oooooohhhhhhhhh aaaaaayyyyyyyyyeeeeeeeeeee.

But he did not stopped. Rather he placed his lips on mine and sealed them. My cries were now muffled and only sounds of ggggggggnnnnnnnnnn were coming out of my nose. He applied more pressure and whole of his dick penetrated into my pussy. He stayed there for some time. I could feel some liquid was flowing over my ass hole and I understood that it was my virgin blood. I was dying with pain. He now started to and fro motion after some time. Again pressure of pain arose inside me. But soon all the pain disappeared and I were enjoying my part again. He was now pumping me with full speed and soon I was over. He was not. So he continued moving to and fro inside me. After

some time he pulled his dick out of my pussy and made me in the doggy style. He placed his dick on my ass hole and made some force. His dick penetrated into my ass. I cried a lot aaaaaaaaaaaaaaaaaahhhhhhhhhhhh.

But he continued his job. He pumped me for about 15 minutes in this posture. My pain gone away but I could not enjoy in this position. After some time he put his dick out and told me to open my mouth. As I refused, he grabbed my hair. As I opened my mouth to cry he shoves his dick into my mouth. He made three or four strokes and he cummed inside me. I had to drink all the cum which I liked later.

After that we took rest for about some time and he was ready again. Now he stood me against the wall and fucked me in this position. I too liked this position. We fucked for whole night. Too many positions were made. I enjoyed every part of my fuck.
