Today I'm going to tell u about my sex encounter with my colleague. I am a proud Indian and live in Tamil nadu. I am doing my graduation 1st year and this happened when I was in 15th. I had a class friend who was damn sexy. She had a great body. Big breasts, coffee brown hair, black eyes and a coke bottle figure, which was really inviting. Sometimes she gave me signals that she wanted me badly but I being a shy guy didn't respond. Our friendship had been going on for about 1 year now and we used to meet regularly in school. On one typical day in school I was in the computer room of my school with my friend. She suddenly came to me and asked me that could I come to her house on Sunday. I was taken aback by this sudden request of hers. I was to say no as I had to go on movie with my friends on Sunday but I saw desperation or lust in her eyes. I could tell that she wanted me badly. I said ok I would come at 11:30 in the morning she looking very happy went away.

Days passed as Sunday came near and I was thinking what her purpose of calling me to her house was. Then came Sunday, I rang her doorbell and she opened the damn door. Whoa! She was looking very hot and erotic. I could shake then and there looking at her even in her clothes. Imagine this, an extremely attractive girl with perfectly round and big tits and well-shaped ass, in a skintight sleeveless shirt, which was tied in a knot to reveal her navel and very tight pair of jeans, which extended only to her knees. She told me to come in and I stepped in and saw a dimly lit yet beautiful room with all the windows closed and curtains drawn. There was extreme silence in her house and I could make out that she was alone. She offered me a tea and got herself one too. We sat quietly sipping away at our respective drinks staring at each other. The atmosphere was what you call romantic and I was getting hornier by watching beautiful curves of her body.

I asked her the reason why she had called me and she said she was having trouble with her computer, as she knows that I have computer in my house and my brother is computer professional. I asked her that what is the problem she told me that monitor is not working properly. So I just check it out and within ten minutes I came to know that the connection was loose and I fixed it and just put it on. Suddenly when computer was on I was shocked to see that she had got so many xxx pictures. Pictures are of different fucking positions of man and women. I glanced at her and she looked curious about my reaction. I was getting hornier and hornier. She asked me if I teach her practically. I was hesitating but it was a golden opportunity for a virgin like me, sure I have seen my xxx movies but in sex it was my first experience. While I was explaining frequently I found her hand nearing my cock. It was making me really aroused and my cock was bulging in my tight jeans. She was staring right at my erection and that was making me uncomfortable. At last when I

wasn't able to control myself, I take her to the couch and let her sit on my lap.

I was too mad with lust at that point and put my lips on hers and kissed like a mad man. She fully cooperated and embraced me with both her arms. Her tits were pressing against my chest. They were as soft as, I can't describe how soft and smooth they were. I was a virgin at that time and I knew that this was the day her and me lose our virginity. I was exploring her back while kissing her and my finger went into her jeans and touched her panty. That was the first step in our sex adventure. Finally we stopped kissing. She stared right in my eyes as if warning me that this was going to be hardcore. She put her hand on my rock-hard 7 penis and started massaging my crotch. It felt that I would cum right then but I controlled. Meanwhile I was playing with her soft melons from the outside of the shirt. Then slowly I reached inside and squeezed her nipples. It was heaven! She unzipped my jeans and took them off. This left me in my underwear with a tent in the middle because of my erection. She was delighted to see me in that state. I too tore off her shirt and she wasn't wearing a bra and her tits jumped out. Beautiful! She slid down my underwear and held my 6 manhood in her hand. It was too big for her hand so she used both hands to hold it. She stripped off her jeans and bent down on her knees. I knew what she was doing and gave her my cock. She instantly took it in her mouth. The bloody bitch. She must have watched a whole lot of blue films to know that much about sex. She gave me a wonderful blowjob. It hurt at first when her teeth rubbed against the skin but slowly pain turned to pleasure. She kept sucking my cock for about 5 minutes when I told her that I was going to take it out as I was about to release my load. She insisted that shoot it in her mouth and held onto my penis. I shot all the sperm in her mouth and she gulped it like a whore.

I knew all the sex positions but first I want to lick her pussy, because that is the thing I like most while sex. Her pussy was sweet in taste like honey and too tight even I find it difficult for my tongue to get inside. Within two minutes I can see her stomach muscles getting tight I know that she is going to come, so I started licking faster and faster suddenly she shivered and all her juices came in my mouth and I drink it all. Really it was tasty. I told her that I was going to fuck her between her breasts and she lied down on the couch. She pressed her tits and made a tunnel in between them so that we could get maximum pleasure. I did that for about 15 minutes and loved every second of it. I came on her breasts and then licked them clean. I slowly bit her nipples and sucked on one while playing with the other. Next up was fingered fucking; I put my index finger in her love hole and started stroking them up and down. She was loving it and giving loud moans of pleasure. After a few minutes when I felt that her cunt was loose enough I used my second finger too and licked my fingers, which had the taste of her pussy juice. I made her lick the fingers too. She told me in between her moans and gasps that please enter my love hole. I was desperately waiting for that and I told her to lie down on the carpet and open her legs wide. I came near her hole with my cock and she

grabbed it and guided it into the pussy.

For some time she supervised the strokes with her hand but then left it to me. I started pushing harder and she was screaming with pain. I slowed down and asked her if she had vaseline or something. She got up with a lot of effort and went into a room and came back with olive oil and handed it to me. I took some olive oil rubbed it on my cock and some inside her pussy and told her that this would ease the pain a lot. She looked relieved and asked me to start the fuck again. I pushed my cock in her. She screamed but a lot less. I started fucking her slowly with gentle strokes. With my ever in-stroke she inhaled air and with every out-stroke she exhaled air. I increased the pace and started ramming her with my dick. Her screaming was decreasing with ever second and a smile of ultimate pleasure came on her lips. That girl was enjoying it more than me. I fucked her for a long, long time and instantly stopped when I was about to cum. She and I cummed together and I could feel her juice on my cock. We both stopped and relaxed, my cock still inside her. We were exhausted after that and lay on our backs. I took out my limp penis out of her hole and put my clothes on and she slipped into another shirt as I had torn the previous one. We both sat on the couch she turned on the air conditioner. We both started french kissing passionately, we kissed about 15 minutes. We had something to eat as we were completely out of energy.

Then I told her I had to go back as I have some work. But as I reached my house a phone came that my computer is not working. I told her I that I know where the problem is? It was really the best experience ever for me. But after one month she went away I missed her a lot. I wish that she would come back and then we could have sex again
