Hi everybody, this is Raj again with another story. To those who dont know me am raj kumar, 26 from neyveli living in chennai. I am an aunty lover I love women more than girls, am fond of armpits which are wet. So aunties do mail me if u wish to feel how armpit fuck looks like mail id. mrformistress@gmail.com

Coming to the story the heroine is my aunty Shree 38 she is a family friend of us and lives in a house near our area. She was married to a guy who is in his later 50s now. So obviously she must be starving for sex I guessed. I was interested in her form the day I saw her she was fail short and chubby a look which make every men forget their wife and to think of her a second.

All this urge started few years back. I frequently visit their house. Forgot to mention they dont have kids still. (its because of the medical problem wit uncle later I came to know from shree). Uncle is a busy man always traveling. So all were favorable for me so I wanted to make a try. (i know aunty likes me she use to stare at me starving when we were at home.).

Once we were texting on whatsapp. Aunty asked me are you busy tomorrow I felt something odd inside and said no aunty I have some small work (actually I had no work) in morning. I received a sad smile I asked her what happen. For which she replied that she wants to go out to her some stuff for main bazaar (a place for shopping in neyveli) I asked about uncle she said uncle had gone to chennai for a meeting and will be back in 3days. Devil in me started working. I said ok aunty I will cancel my program (which was a lie to attract her) and come wit you aunty was happy.

I had a long sleepless night and reached early that planned and found aunty cooking still I went inside kitchen and started helping (glancing her assets) her. She was wearing a pink nighty which was tight fit to her . Guess what the armpit was wet like hell because of the heat. I was fucking starving to lick and eat them. Accidentally our bodies touched couple of times she dint mint at all. So I wanted to make a big move.

Seriously I was tempted on sweaty wet armpits I promise. Soon she finished coking she was heading to take bath I followed her to bed room ,(i wanted to feel her smell before she bath) she asked wat u want without wasting a second I hugged her tight first she resisted hard but am not in a mood to leave her. Soon I raised her armpits and buried my face on it. I was in heaven the sweat smell made me fly in air. I dont lick at first I was only smelling to the core and inhaling the aroma to my inner heart. Fuck it was damn good.

Later I realized that the resistance for reduced and aunty started enjoying it. I could hear her ah ah ah hmm hmm and all. I decided the day is mine I should use it.

I tried to carry her but cant I pushed her to the bed and climbed on her hold her arms over above her head and started licking her armpits . I liked it to the hell over her dress. I wanted to eat them raw so I pulled her nighty out in a second and back to same position arms raised and started locking the white armpits which was shave few weeks ago. Tiny hair poking on my face I loved it.

After cleaning her armpit by my tongue I shifted to other parts one by one her boobs which was like big coconut I could not hold the wit one hand I started sucking one and squeezing other I pinched her nipples and rolled the in between fingers she was dying on it.

I locked her lips and exchanged saliva . I love drinking saliva I demanded for more and more saliva for which she was tired of giving me saliva. I am crazy on it. By this time her pussy was flooded and panty all wet I directly went to wet dam below and removed her panty and started licking them to the core. I finger fucked her and stimulated her g spot.

She gone mad and said that she had never been pussy licked before I her life ever tears were rolling from her eyes on happiness. She wanted me to fuck she begged me literally. Pannu da va da please (come fuck me please) I was teasing her by rubbing my dick on the pussy wall. She herself pulled me in and I was fully inside her in a single push.

The pussy was damn loose and free. Because of her age. But I likes it I rammed her harder and hared whole making love bites on her boobs. It went for more than 20 min. By the time we both got our climax and were exhausted I was her lying dead like her. I was keeping her face on her armpits and feeling her aroma.

I started cleaning her whole body but my tongue. Yes I started licking her where ever it was sweat. I loved drinking sweat specially on armpits.

She was enjoying it to each and every lick as I did. Soon we went to have bath and cleaned ourselves. I soaped her and she did mine and we got dressed up soon and went out to finish her work

Later we had lots of sessions and fuck nights on all the occasion we got alone. Still now we both are in a relation. Which will con..
